

# AlphaTheta OMNIS-DUO Quickstart Guide

# Setup

## Serato software

The AlphaTheta OMNIS-DUO is a “Serato DJ Lite hardware unlocked” device, meaning it works with Serato DJ Lite out of the box.

It is also a “paid upgrade to Serato DJ Pro device”, meaning it requires the purchase & activation of a Serato DJ Pro license, in order to be used with Serato DJ Pro.

You can also try Serato DJ Pro, before making a purchase:

Please ensure you have the latest version of Serato DJ Pro installed:

[Click here to download Serato DJ Pro](#)

## Drivers

The AlphaTheta OMNIS-DUO is class compliant on macOS, but requires manufacturer specific drivers when used with Windows operating systems.

Regardless of your operating system, download and install the latest version of Serato DJ Pro, then connect your OMNIS-DUO with a USB cable to your computer, and launch Serato DJ Pro.

If using Windows, when prompted, click the **Install Driver** pop-up.

Alternatively, you may download the latest driver directly from [Pioneer DJ's website](#).

## Connection

Connect your OMNIS-DUO with a USB cable to your computer & launch Serato DJ Pro, and follow the prompts below, on the OMNIS-DUO touch-screen display:

1. Touch **[SOURCE]**
2. Touch **[SOFTWARE CONTROL]**
3. Touch **[LOAD 1]** to connect deck 1
4. Touch **[LOAD 2]** to connect deck 2

# MIDI

The MIDI feature in Serato DJ Pro provides the ability to remap Serato DJ Pro software functions to your primary Serato controller, interface or mixer. You can also assign controls to a secondary MIDI controller to further enhance your performance.

[For more information on MIDI mapping with Serato DJ Pro click here](#)

To remap your supported Serato device, open the SETUP screen and click the MIDI tab. If your Serato device supports hardware remapping, it will show up in the MIDI Devices list at the top.

Select your connected device from the MIDI Devices list and make sure the “Allow Serato Hardware Remapping” option is checked.

Allow Serato Hardware Remapping

Once checked, the MIDI assign button at the top of the screen will become available for you to start remapping.

You can save, edit or delete MIDI presets in the MIDI tab of the SETUP screen. Clicking ‘Restore Defaults’ will erase any custom mappings for all connected devices and revert their functions back to default.

# Help

## Show Tooltips

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Show tooltips** to enable tooltips. Tool tips provide a handy way to learn the various features of Serato DJ Pro.

Move the mouse over a section of the screen to bring up a context sensitive tool tip.

## Watch Tutorials

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Watch tutorials** to launch your default internet browser and watch tutorials, to help you get familiar with Serato DJ Pro.

## Get Support

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Get support** to launch your default internet browser and navigate to the Serato DJ Pro knowledge base, where you can find helpful articles and guides on Serato DJ Pro. Alternatively, type in the  **Go** box, with keywords, to search the Serato DJ Pro knowledge base for specific, related topics.
